## Gas Ranges That Make Canning Easy

Canning with the Lorain Oven Heat Regular is simple, quick and safe. Fruits and vegetables keep their form, color, and flavor when canned by this successful method.

Canning is no longer a hot, tedious task which spoils the summer. There is no need for extra mensils. No excuse for aching backs and scalded fingers. The Lorain Oven Heat Regulator makes canning a simple, pleasant piece of work, with results which tar surpass those obtained by the older methods.

## Dangler, Favorite and Chambers Ranges

All good bakers because the heat is distributed evenly to all parts of the oven. Oven is extra deep and has proper ventilation, valves are in front, oven and broiler high enough to prevent steoping.

### Traffic Lights

.. Lima is experimenting with automatic traffic lights. One has been installed at the corner of High and Elizabeth-st and is being operated to ascertain how the public will react to it and whether or not a series of such "Japanese lanterns" would be practicable for directing Main-st traffic from a central point after the street is paved.

While the light has been installed only two or three days, it appears to have many possibilities—and some drawbacks. It can never be expected to take the place of a uniformed policeman in the center of the intersection. The mere presence of the policeman retards those who would be careless. The light will not stop some from taking chances. If the human element could be eliminated, the element that makes for law-breaking and rule jumping, the suspended winking and blinking signals might be the finest thing in the world.

When Main-st is rayed traffic congection | He fell we have been experiencing for the last several months will be somewhat relieved, generally. Truffic however, will be considerable heaver on that thorofare and with the important cross streets in the downtown section, directing this heavy flow will be a serious problem. The fact that the street car lines traverse Main-st will add to the burden. The lights should be tested from every angle before they are installed on that street at a heavy expense.

### Our Modern Life

Here's a man who has never talked over a phone, seen a movie, heard a radio, chewed gum, eaten ice cream, worn a collar or ridden in a train or auto.

And he's 70 years old.

Meet Gus Bishop of Liberty, Mo.

Gus lives in the house where he was born. That house and a few miles of territory surrounding it are his empire. Kansas City is only 20 miles away. But Gus has only been to K. C. once. That was 60 years ago.

Immanuel Kant lived the same sort of life. And yet he was one of the great metaphysical philosophers.

Why marvel at Gus? Abraham Lincoln | hideous. acver talked ever a phone, saw a movie. heard a radio, chewed gam, ate ice cream er rode in an auto.

Lineolu did travel. He did wear a collar, hample. He did ride in a train.

But a large part of his life was spent in the simplicity that has always surrounded; Gus. And it was the most important part of Lincoln's life - the time when he was, by contact with talure and books and straight thinking friends developing his spirtual 🚢 nature that made him famous.

Movies, autos, radio, trains and all the rest of the long list of "marvels" are not basic things in life. They are simply forms sold conveniences and diversion-tools for accomplishment and the relaxation that is necessary while our bodies' batteries are recharging for more accomplishment.

The main functions of life are growth, i maintenance of health, mental and spiritual development, marriage, rearing a family self-propagation, the scientists put it. The these simple functions.

Hereafter in a state of mental confusion as to just what has happened and what it's all about. Life is simple. Man makes it complex and confusing.

Our guess is that old Gus Bishop has forgotten more of the "real stuff" than will ever be learned by most people who utilize the "marvels" of our generation.  $\theta$   $\theta$   $\theta$ 

### Education Not All

He was good and straight and respected for 49 years, and then-

Arthur W. Kent, old and broken, was taken to the jail at Ann Arbor, Michigan.

He has been schoolmaster, teacher of history, leader of a Sunday school class, geueral helper and adviser to young ideas. Now he is at the end of things, for, in a brief two years, he wrecked a lifetime of honor.

Wife became sick. His salary never had been large, as seems, the sail lot of the school teacher, and grave need faced him.

A bogus check was passed. It did not

was easy to defraud—but they only relieved the body and not the soul. His flight became more desperate. Always, always, the law was but a few steps behind him.

"I never knew happiness in those two years of flight," he says. "I never knew what it was to live blissfully or sleep sounds press a saccee, even if you know times called pleuro preumonia, to drain the bronchiecatic cavily. Always fearing, always fleeing."

## SAM BOHN SAVES DAY AS REDS STAGE RALLY

NEW YORK -- (By Associated Press) -- After week of inactivity, the volcanic batters of baseball have appar ently entered a period of violent home run eruption.

Jaquese Fournier, home run leader of the National League, made a brace of four baggers off Nehf yesterday but the Giants, continuing their favorite occupation of beat ing the Robins, won 7 to 5. It was their twelfth triump over Brooklyn in fifteen starts and their fourteenth win i the last sixteen games. They now lead the league by 5 1-

Homers by Fadgett and Stengel accounted for three Boston runs in their 9 to 4 victory over the Phillies in the first game of a double header. The Braves lost the second six to four.

REDS WON THE GAME

The aspiring Cubs were a withered bunch after they got thru with the Cincinnati Reds Monday. It has been radioed that the Reds were a punk team a sort of a booster to the Cubs pennant aspirations. But they railled back to the time when they did and could play ball. And they didn't give up, and there was no indication of weak hearts, because right up to the high himing they.

It was a pitchera' battle, like the enes we read about when one of the old masters was in the box. That lene telly looked like the figure one with saveral time form, and Aldridge seemed to be adding to an already high rep-

forced Pinelli at second. The single tally looked good to the Cubs. Then Wingo spoiled it all by whacking a clean single; this put Cavener on record. Then Lee late of Philadelphia made his bow, and he had the nerve to sock a clean single to center that brought Caveney home. Wingo was held at center, and Buras penped up; it looked like extra innings. Then Sammy Bohn stepped up instead of Critz, who had been playing second. etc., use warm water to which a little Climalene has been added, and pure white soap. Do not tub the clothes but cleanse by dipping up and down repeatedly, thus flushing the water through UST a few magic crystals of Climalene in the bath—and the irritating harshness of hard water is transformed into a luxury of cleansing softness.

And after the bath, the tub is as spotless as the glowing body of the bather-no scum, no unsightly high-water mark to scour off.

This is the supreme test of Climalene, proof of its absolute harmlessness to the tenderest skin, visible evidence of its cleansing properties, and its soap economy.

And everywhere that cleaning is to be done, Climalene will serve you equally well. Three times a day in the kitchen it will lighten labor and make your dishes shine. Pots and pans, greased and smoked, quickly come bright again under Climalene's magic spell.
